SKILLS

Game Dev: Unity, Godot

Web: TypeScript, JavaScript

Tech: C#, C++, Java, Kotlin, Tech Leadership

Infrastructure: TeamCity, Docker

AI Tools: Anthropic Claude, Cursor AI, OpenAI Codex

SUMMARY

Senior Software Engineer and former CTO with 13+ years of game development experience, specializing in C++, Unity, C#, gameplay systems, ECS, client-server features, performance optimization, and developer tooling.

Most recently developed gameplay and meta systems for Homescapes (600M+ installs), contributing to 11 features and delivering engineering improvements including a 21–40% frame-rate increase and an hours-to-minutes UI integration workflow.

Experienced in large legacy codebases, backend systems, CI/CD, and technical leadership. Actively designs AI-assisted development workflows for specification, planning, implementation, validation, and code review.

Creator of Hidden Council, a Unity 6 grand-strategy game built with a custom C# ECS and structured AI-driven development process.

EXPERIENCE

- Senior C++ Engineer**

May 2024 - Aug 2026

Playrix: #3 mobile game company · 100M+ MAU · 2.3B installs, 12 titles | Novi Sad

 - Worked on Homescapes - 600M+ installs and a historically top-10 grossing title in the US on App Store and Google Play
 - Contributed to 11 gameplay and meta features across 4 feature teams, including 8 server-backed, social, or competitive features
 - Developed core gameplay systems in C++ and Lua: cooperative and competitions events, end-of-content event, ECS systems for Merge3 event, player profile
 - Implemented client-side server integration for clan quests, card transfers, player profile and competitions, including request/response flows, state synchronization and error handling
 - Designed and improved Cursor/Claude skills and development rules for feature prototyping and code review; a reusable feature-reporting template helped reduce prototype lead time from months to weeks
 - Implemented ECS engine migration, improving frame rate by up to 21-40%, in 4 days
 - Improved the Figma-to-engine UI pipeline, reducing production-ready layout integration from hours to minutes
 - Integrated and adapted features from other Playrix projects into a large legacy C++ codebase and internal engine
 - Built and extended internal development/debugging tools, including ECS Viewer, editor presets, FixSaves and gameplay cheats
- Chief Technology Officer**

Jan 2021 - May 2024

Matryoshka Games: 80M+ installs, 10 titles | Novi Sad

 - Worked on Cooking Craze and 7 more projects (60M+ installs overall)
 - Implementing new analytics service to cut Amplitude costs - 100 GB traffic/day, 8K peak RPS, 5 TB Postgres storage
 - Planning & development of several custom SDKs - C#, Unity, ads & analytics
 - Supporting infrastructure - Docker, AWS EC2, ECS, SQS, CloudWatch
 - Technology leadership - code review, new solution analysis & prototyping, shared codebase management
 - Management - performance reviews, tech leads management, tech interviews
- Senior Unity/C# Developer**

Apr 2018 - Dec 2020

Matryoshka Games · Novosibirsk

 - Worked on Cooking Craze project (50M+ installs)
 - Developing admin tool for f2p game operations - ASP.NET Core, TypeScript
 - Improving shared codebase for different projects
 - Integrating BaaS solutions like BrainCloud (saves, chat, leaderboards)
 - Implementing complex CI/CD pipeline based on TeamCity
 - Pushing forward code review initiative
- Middle Unity/C# Developer**

Apr 2016 - Apr 2018

Deus Craft · Novosibirsk

 - Worked on Cooking Craze project (50M+ installs)
 - Developing core/meta gameplay features, integrating 2D art content into the project
 - Integrating native plugins: ads, FB, Crashlytics; server-side support - Java/Spring
 - Developing advanced asset bundles management and content management extensions, implementing custom incremental build pipeline

Unity/C# Developer | Technical Team Lead

Jul 2013 - Apr 2016

Academ Media · Novosibirsk

- Establishing short-term games/application development
- Implementing build pipeline and project template for projects
- Team management, pushing forward developer training initiative
