SKILLS

Game Dev: C++, Unity
Tech: .NET/C#, Tech Leadership, Java, Kotlin
AI Tools: Anthropic Claude, Cursor AI

Web: TypeScript, JavaScript
Infrastructure: TeamCity, Docker

EXPERIENCE

- Senior C++ Programmer** Playrix · Novi Sad · Hybrid

May 2024 — Present

 - Developed core gameplay systems in C++ for a large-scale mobile project
 - Prototyped new gameplay and UI features and adapted existing features from other company projects to the current codebase
 - Built and configured production-ready UI using visual scripting and layout tools, including importing and adapting interface designs from Figma
 - Integrated game-balance configurations exported from Google Sheets into the project
 - Contributed to ECS engine migration, improving architecture and performance
 - Built internal tools to streamline development workflows and reduce iteration time
 - Worked on client-server systems, focusing on data flow and performance
 - Introduced AI-assisted workflows (Cursor, Claude) for prototyping, code generation, and review
 - Designed custom AI prompting rules, improving consistency and development speed
- Chief Technology Officer** Matryoshka Games · Novi Sad

Jan 2021 — May 2024

 - Implementing new analytics service to cut Amplitude costs — 100 GB traffic/day, 8K peak RPS, 5 TB Postgres storage
 - Planning & development of several custom SDKs — C#, Unity, ads & analytics
 - Supporting infrastructure — Docker, AWS EC2, ECS, SQS, CloudWatch
 - Technology leadership — code review, new solution analysis & prototyping, shared codebase management
 - Management — performance reviews, tech leads management, tech interviews
 - Working on Cooking Craze and 7 more projects (60M+ installs)
- Senior Developer** Matryoshka Games · Novosibirsk

Apr 2018 — Dec 2020

 - Developing admin tool for f2p game operations — ASP.NET Core, TypeScript
 - Improving shared codebase for different projects
 - Integrating BaaS solutions like BrainCloud (saves, chat, leaderboards)
 - Implementing complex CI/CD pipeline based on TeamCity
 - Pushing forward code review initiative
 - Cooking Craze project (50M+ installs)
- Middle Developer** Deus Craft · Novosibirsk

Apr 2016 — Apr 2018

 - Developing core/meta gameplay features
 - Integrating 2D art content into the project
 - Developing advanced asset bundles management and content management extensions
 - Implementing custom incremental build pipeline
 - Integrating native plugins — ads, FB, Crashlytics
 - Integrating new features on server-side — Java/Spring
 - Cooking Craze project (50M+ installs)
- Technical Team Lead** Academ Media · Novosibirsk

Jul 2013 — Apr 2016

 - Establishing short-term games/application development
 - Implementing build pipeline and project template for projects
 - Team management
 - Pushing forward developer training initiative

EDUCATION

Novosibirsk Institute of Economics and Management — Computer Science, Bachelor's 2009 – 2013
